My TA, Monique, was always very well prepared for class. She knew that we had a very limited amount of time to get through everything and was always ready to jump in, but was also always willing to adapt to our needs and stop to answer questions. She was also always able to help me when I came to office hours. Like a indicated above, she is also super knowledgable about the subject matter which was super helpful when I had questions.

always came to class prepared with slides

## Q11 - What might the TA do to improve your learning experience in the course?

What might the TA do to improve your learning experience in the course?

I really can't think of anything.

be more approachable/willing to help students during class sessions, don't get frustrated when students don't understand the first time

## Q13 - Any additional comments you'd like to share?

Any additional comments you'd like to share?

---

I think the TAs and the students would benefit from having a slightly longer discussion section each week. Like Monique told us many times, it doesn't seem that 50 minutes is long enough for things to sink in like they should and isn't long enough for the TA to get through everything. I would suggest adding a little more time to these discussion sections if possible.
